

# AKSHAY WADATKAR

FRONTEND DEVELOPER

Maharashtra , IN | [linkedin](#) | [Github](#) | 9096852719

## SUMMARY

Experienced Front End Developer with a proven track record of creating dynamic and responsive web applications. Proficient in React.js, Angular.js, and TypeScript, with a strong commitment to writing clean and efficient code. Continuously updating knowledge of industry trends and technologies to deliver exceptional user experiences.

## WORK EXPERIENCE

### FrontEnd Developer

Truecover Technologies, Mumbai

03/2023– Present

My role as a frontend developer included designing, building, delivering, integrating, and system testing, as well as code migration, launching, and providing post-launch support

- Achieved remarkable results in optimizing the claim processing flow for the Claim Portal, resulting in a significant reduction in claim processing time and enhanced user satisfaction.
- Successfully resolved production issues promptly, ensuring the stability of the portal and delivering a seamless user experience for both internal teams and external customers.
- Developed a highly efficient ticket management system within the Admin Portal, improving task tracking and completion rates for listed agents.
- Designed and implemented an unregistered flow process, facilitating a smooth onboarding experience for unregistered employees and effectively reducing potential bottlenecks.
- Streamlined the client onboarding process, resulting in faster client onboarding and increased client satisfaction.

## EDUCATION

### Master's Degree in Science - Geology

Government Institute of Science, Aurangabad.

2020 – 2022

### Bachelor's Degree in Science - Geology

Shri Shivaji Science College, Amravati.

2016 – 2020
